

Black Sea Buildings Energy Efficiency Plan - BSBEEP Project

The Workshop On
“ENSURING ENERGY EFFICIENCY IN BUILDING INSPECTION”

3rd of November 2015 - Samsun - Turkey

PRESS RELEASE

The Workshop on “ENSURING ENERGY EFFICIENCY IN BUILDING INSPECTION”

A workshop on “Ensuring Energy Efficiency in Building Inspection” will be initiated by Samsun Metropolitan Municipality within the scope of the Black Sea Basin Buildings Energy Efficiency Plan - BSBEEP Project¹ implementing by ten project partners located in Black Sea Basin within the framework of ENPI-Black Sea Basin Joint Operational Programme 2007-2013².

The workshop will be held by cooperation of Samsun Metropolitan Municipality, Ministry of Environment and Urbanization and The Union of Municipalities of Samsun on 3rd of November, 2015 in Samsun.

Participation to the workshop is expected from all authorized managers and technical staff from Samsun Metropolitan Municipality and other district municipalities located in Samsun regarding with energy efficiency in buildings, the relevant departments of the Ministry of Environment and Urbanization, provincial directorates of the Ministry, governmental institutions, building inspection firms, engineering and consultancy firms, project developers, and NGOs taking part in building inspections.

The participants are expected to have certain technical information and knowledge on building inspection and to have taken part in ensuring energy efficiency during the building inspection processes.

Best Regards.

¹ BLACK SEA BUILDINGS ENERGY EFFICIENCY PLAN - BSBEEP PROJECT

Black Sea Buildings Energy Efficiency Plan - BSBEEP Project aims at the establishment of strong regional partnerships and cooperation schemes in Black Sea area through the reinforcement of administrative capacities of local authorities and bodies in a very crucial sector (energy efficiency in buildings) having major environmental and economic impacts locally and globally.

The ultimate goal is to achieve change in the way they treating energy for buildings; facilitating change in the way local societies are acting. Furthermore, the project focuses on the establishment of a knowledge and experience exchange network aiming at the promotion of buildings energy efficiency. The network will engage a wide spectrum of organizations such as local and regional authorities, universities and research centers and NGOs which will help promoting energy efficiency in buildings at local and regional level. Meanwhile it will focus on raising awareness and mobilizing private sector and leverage funds to support future initiatives.

Ten partners are participating in the BSBEEP Project from six different countries; Municipality of Kavala (GR), Municipality of Galati (RO), Municipality of Cahul (MD), Municipality of Mykolayiv (UA), Municipality of Samsun (TR), Municipality of Tekirdag (TR), Democritus University of Thrace (GR), University Dunarea de Jos of Galati (RO), American University of Armenia (AM) and Renewable Resources and Energy Efficiency Fund (AM).

More details about BSBEEP Project are available on its website: www.bsbeep.com

² ENPI - BLACK SEA BASIN JOINT OPERATIONAL PROGRAMME 2007-2013

ENPI - Black Sea Basin Joint Operational Programme 2007-2013 is one of the two cross border cooperation programmes in the course of financial cooperation between Turkey-European Union. This multilateral cooperation programme involves 8 countries, namely Armenia, Bulgaria, Georgia, Greece, Moldova, Romania, Turkey and Ukraine, and it is jointly financed from ENPI (for participant countries excluding Turkey) and IPA (for Turkey) funds.

The Joint Managing Authority (JMA) has been established in Romania by the Ministry for Development, Public Works and Tourism. The Operating Structure in Turkey is designated with Ministry for EU Affairs (MEU) as the National Authority and Finance and Contracts Unit (CFCU) as the Implementing Agency.

The programme, which aims to provide a stronger and sustainable economic and social development of the regions of the Black Sea Basin, is a framework to finance the projects that meet the following criteria: to be implemented in cooperation with partners from other countries and to have a cross border impact.

Black Sea Buildings Energy Efficiency Plan - BSBEPP Project

The Workshop On
“ENSURING ENERGY EFFICIENCY IN BUILDING INSPECTION”

3rd of November 2015 - Samsun - Turkey

The main topics to be discussed at the workshop are summarized below:

- **Legislation related with Building Inspection**
Mr. Murat AKINBİNBÖL, Master Architect
Ministry of Environment and Urbanization

The laws, regulations and communiqués in force in Turkey on Building Inspection. The important chapters on energy consumption and performance of the Building Inspection legislation. The developments planned/expected near and mid-term.

- **Legislation related with Energy Efficiency in Buildings**
Mr. Ferdi KESKİN,
Ministry of Environment and Urbanization

The brief history of energy efficiency in buildings. Why it is important. How it can be achieved. The importance and benefit to our country. The laws, regulations and communiqués in force in Turkey on energy efficiency in buildings, The important parts of the Energy Efficiency Law and the Directive of Energy Performance in Buildings. The developments planned/expected near and mid-term.

- **Energy Efficiency in Buildings: The Basic Principles**
Mr. Hüseyin Namık SANDIKCI, Mechanical Engineer
Ministry of Environment and Urbanization

The basic principles needed to improve energy efficiency in buildings. The parameters affecting energy efficiency in buildings. The applications need to be considered and description of the details and examples.

- **Ensuring Energy Efficiency in Building Inspection: The Problems Encountered in Practice**
Prof. Dr. Sayın Ahmet YAKUT, Civil Engineer
METU, Faculty of Engineering, Department of Civil Engineering
&
Mr. Nazmi ŞAHİN, Civil Engineer
President of the Association of Building Inspection and Earthquake Engineering

How the building inspection system is being implemented in Turkey. How the energy efficiency dimension in building inspection is being discussed. Inspection of energy performance in building located at building inspection system. Problems encountered in practice. Solution needs.

- **The Control Form of Energy Efficiency Projects and Description Guide**
Prof. Dr. Sayın Ahmet YAKUT, Civil Engineer
METU, Faculty of Engineering, Department of Civil Engineering
&
Mr. Nazmi ŞAHİN, Civil Engineer
President of the Association of Building Inspection and Earthquake Engineering

Detailed description of all of the substances listed at the Energy Efficiency Project Control Form prepared for improving energy efficiency in buildings. The display of accurate details. Giving the examples of correct and incorrect application with pictures.

- **Panel**
Taking questions from participants regarding the presentations made during the day and giving answers.

The programme of “Ensuring Energy Efficiency in Building Inspection” workshop, which will be held within the scope of Black Sea Buildings Energy Efficiency Plan - BSBEPP Project is located in below.
